

TECHNICAL BULLETIN APTB-02/09

Racor Fuel and Oil Filters for 6.0L Engines

DATE : March 19, 2009

REFERENCE: [APTB-06/08](#) 6.0L Fuel Interruption/Air in Fuel Discussion and Recommendations
[APTB-01/09](#) 6.0L Injector Stiction Discussion and Recommendations

As noted in the referenced technical bulletins, providing 6.0L Power Stroke engines with a clean, uninterrupted, supply of fuel and clean lubrication oil will go a long way toward ensuring their trouble-free and long lasting operation. Given that information, what's the first step to ensuring clean fuel and oil for your Power Stroke customers? This Motorcraft [video](#) makes a strong case for using genuine OE filters.

Since Racor is the OE supplier for Motorcraft 6.0L (and 6.4L) Power Stroke fuel and oil filters, you can assure your customers that they're getting OE quality filters when you sell or install the following filters, as found in the Alliant Power Application Guide.

Model Year	Application	Oil Filter	Fuel Filter	Fuel Filter Description
2003-2007	6.0L Power Stroke F-Series & Excursion	PF L2016	PF F4604	Primary and Secondary Kit
2004-2009	6.0L Power Stroke E-Series	PF L2016	PF F4606	
2007-2009	6.4L Power Stroke F-Series	PF L2016	PF F5550
