SUBJECT: AP0058 Intake Grid Heater Gasket

September 4, 2012

Alliant Power is pleased to announce the release of **AP0058** Intake Grid Heater Gasket. This gasket is used at the connections between the intake elbow, grid heater and intake manifold on the applications listed below. Alliant Power recommends replacing this gasket anytime these components are removed (i.e. during fuel injection pump replacement). Applications with no grid heater will require the use of only one of the supplied gaskets while applications with a grid heater will require the use of both.

AP PART NUMBER	YEAR RANGE	APPLICATION	OEM PART NUMBER
AP0058	1989–1998	5.9 L B-Series, 12-Valve	3969988
	1998–2003	5.9 L ISB with VP44	
	2003–2006	5.9 L ISB with Common Rail
