

NPA 60/15

**SUBJECT: AP66955, AP66957, and AP66958 Remanufactured
G2.9 Injectors**

September 08, 2015

Alliant Power is pleased to announce the release of **AP66955**, **AP66957**, and **AP66958** Remanufactured G2.9 Injectors for the Navistar® applications listed in the table below.

With the addition of these three part numbers, Alliant Power now offers complete injector coverage for Navistar applications from 2004 to 2015. Please see the Alliant Power Application Guide for further application coverage information.

Installation Information:

Replacement of G2.9 Injectors requires removal of the high–pressure oil rail. The injector inlet seals are incorporated on the oil rail and must be replaced prior to reinstalling. Alliant Power kit **AP0025** provides the necessary seals and backup rings to reseal the rail properly.

All new products are backed with Alliant Power’s 13–month, unlimited mileage warranty, as well as Alliant Power’s technical support.
