

NPA 65/15
SUBJECT: Alliant Power Diagnostic Tools
November 13, 2015

Alliant Power is pleased to announce premium OEM Diagnostic Tool Kits **AP0100** and **AP0101**. These kits cover all Ford®, GM®, Chrysler®, Dodge®, and Jeep® vehicles shown in the table below. These original equipment diagnostic tools come kitted with your choice of two custom ruggedized Panasonic® computers.

AP0100

Two Fully Rugged Computer Options:

The **AP0101** Panasonic CF-19 Toughbook® is the standard computer with the option to upgrade to the lightweight **AP0100** Panasonic FZ-G1 Toughpad®. Both refurbished computers are backed by a two year manufacturers warranty.

Diagnostic Hardware, Software, and Licensing:

Software licenses are included with these diagnostic tool kits covering the first year. Annual software license renewals are also available separately through Alliant Power for customers that need to renew existing equipment.

AP0101

Diagnostic Tool Registration:

Alliant Power diagnostic tools require registration in order to activate the software. Each kit includes a Diagnostic Tool Registration insert to assist with registration. Further information can be found on [APTB 15/15](#) or at alliantpower.com.

OEM hardware are backed by Alliant Power’s 13-month warranty.

See [NPA 66/15](#), [NPA 67/15](#), [NPA 68/15](#), and [NPA 69/15](#) for additional Alliant Power Diagnostic Tool offerings for Ford, GM, Chrysler, Dodge, and Jeep vehicles.
