

APTB 01/07 R1

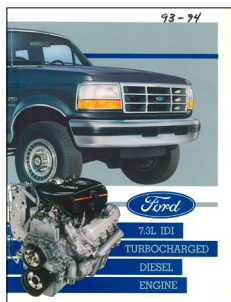

SUBJECT: Ford® Diesel Pickup Truck Service Information

January 7, 2007

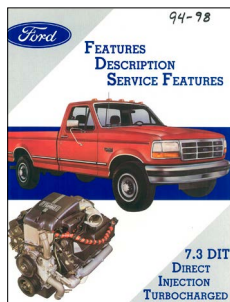

Posted on the Ford Doctors' Diesel Technician Society website is a selection of factory manuals or "coffee table books." These manuals were typically printed to introduce new diesel products to Ford technicians or update them as changes occurred over the years. Listed below are direct links to manuals for 7.3 L IDI through 6.0 L Power Stroke® engines, turbochargers, high-pressure oil pumps and Fuel Injection Control Modules (FICMs).

Simply click on the links below to view the *.PDF directly or save to your computer. These manuals can also be viewed at <http://www.forddoctorsdts.com>.

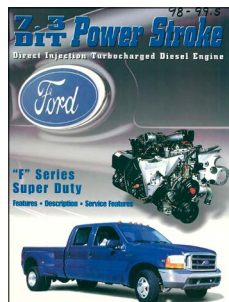

These manuals include component locations, wiring diagrams, torque charts, diagnostic procedures, diagnostic codes and unique service procedures.
