

## SUBJECT: Alliant Power Reman Detroit Diesel Series 50/60 Injector Identification

Each reman Detroit Series 50/60 injector by Alliant Power is properly identified with a part number, trim code and serial number. The ID markings are located on the top of the tappet/follower of the injector. When replacing these injectors, it is important to program the injector trim code to the corresponding cylinder. The diagram below breaks down the significance of each row of numbers.
