

Injector Parts Tray

DIPACO is offering an improved injector parts tray DPE99001. The tray is made from 3/16" acrylonitrile butadiene styrene (ABS) providing greater impact resistance, toughness, and rigidity when compared to other common polymers.

The DPE99001 part tray has 8 cavities measuring 8.78" x 2.53" x 2" deep. The increased length and depth of each cavity allow for better storage of complete injectors and components. The overall size of the tray is 21.25" x 15.84".
