FEATURES & BENEFITS:

- **Quality Assurance:** Alliant Power Remanufactured Turbos are designed and rebuilt to meet or exceed the same quality and performance standards as the original equipment manufacturer's (OEM) turbos
- **Reliability:** The use of genuine components and strict quality control in the USA ensures the turbo's reliability, reducing the risk of breakdowns and costly repairs
- **Savings:** Alliant Power Remanufactured Turbos are a more cost-effective solution to the OEM unit. Making them an economical option for vehicle owners looking to replace their factory turbos.
- Backed by our Alliant Power 2-year unlimited mileage warranty
