

FORD®
Pre-Programmed FICM
2003-2010

**The solution you need.
The quality you trust.**

Alliant Power offers Remanufactured Fuel Injection Control Modules (FICMs) for Ford 6.0L Power Stroke applications.

- 3 part numbers offer complete application coverage
- Pre-programmed and calibrated to OEM specs
- Limits downtime
- Eliminates the trip to the dealer
- 24-month, unlimited mileage warranty

Remanufactured Fuel Injection Control Module (FICM)

AP part number	Application	Program	OEM part number
AP65122, AP65122N*	2003-09/21/2003: F-250/350/450/550, Excursion	Pre-programmed. En- gines built BEFORE 09/22/2003.	4C3Z12B599ABRM, 4C3Z12B599AB, 4C3Z12B599CRM, 4C3Z12B599AARM
AP65123, AP65123N*	09/22/2003-2004: F-250/350/450/550	Pre-programmed. Engines built ON or AFTER 09/22/2003.	4C3Z12B599ABRM, 4C3Z12B599AB, 4C3Z12B599DRM
	09/22/2003-01/31/2005: Excursion		
AP65124, AP65124N*	2005-2007: F-250/350/450/550	Pre-programmed.	4C3Z12B599ABRM, 4C3Z12B599AB, 4C3Z12B599ERM
	02/01/2005-2005: Excursion		
	2004-2010: E Series		

Note: The only difference between the three available FICMs is the calibration software. Improper application is acceptable if there is no other option. Example: An AP65122 can be installed on a 2007 F Series®. To prevent runability issues and fault codes it will require recalibration once installed.

*No core option
